

GEOFF CORDNER

geoffcordner@gmail.com – 323-528-2488 – Pasadena, CA, 91104 - [LinkedIn](#)

I am a software developer and ecommerce specialist with over 15 years of experience building clean, fast, responsive websites that look great and perform well in all environments. I deliver great work on schedule, care deeply about my work, and delight in the process. A WordPress specialist, I have over 10 years of experience as a WordPress and PHP developer. I am a strong supporter of A11y and believe in an internet accessible to all. I adhere to WordPress coding standards for maintainability, security, and ease of collaboration. Part of every day should be dedicated to learning something new.

EXPERIENCE

WordPress Engineer (Feb 2023 – Present) 36 Circles

Head engine & developer for an ecommerce company that has multiple sites and brands, and several thousand skus

- Built custom themes and features, front-end and back-end, for a herbal supplement company with multiple brands;
- Manage and supervise remote contractors working on custom themes for a number of smaller ecommerce and informational sites;
- In charge of code reviews, quality assurance, deployment;
- Strict adherence to WordPress coding standards to facilitate code readability, compatibility, ease of maintenance, easier debugging, and ease of collaboration and contribution;

- Extended WordPress and Woocommerce CMS, building complex backend systems using ACF, custom post types, custom fields, and PHP;
- Build and maintain custom plugins;
- Set up tooling for compiling using terminal and NPM;

Develop, QA, and Review websites so they are accessible per A11y & WCAG 508 Accessibility Standards.

WordPress Engineer (June 2022 – January 2023) Kanopi Studios

Fully remote engineer in a distributed WordPress agency responsible for supporting multiple clients as well as new site builds.

- Built custom themes and features, front-end and back-end, for a number of large-scale health, government, and non-profit sites;
- Extended WordPress CMS, building complex backend systems using ACF, custom post types, custom fields, and PHP;
- Guide processes for code reviews, quality assurance, and WCAG 2.1 accessibility remediation;
- Took strong initiative to gain a deeper understanding of vanilla JavaScript;
- Set up tooling for compiling using terminal, NPM, Grunt and/or Gulp and Integrate CI/CD using CircleCI;
- Develop, QA, and Review websites so they are accessible per A11y & WCAG 508 Accessibility Standards.

Full Stack Web Developer (March 2021 – December 2021) Social Driver, as Contractor.

I was contracted as a front-end/full stack developer to build and launch two heavily customized WordPress websites.

- Built custom themes, front-end and back-end, for two large scale health and education sites;
- Extended WordPress CMS, building complex backend systems using custom post types, custom fields using PHP;
- Analyze Sketch mockups and Invision prototypes to develop Live Websites using HTML/CSS/SASS/JS/PHP;
- Migrated and imported data from clients' previous websites;

Web Developer (January 2020 – Present) as Freelance.

- Designed and developed custom WordPress themes;

- Designed and built a network of news and culture websites for an established journalism cooperative;
- Utilized WordPress, WordPress Multisites, and WooCommerce to provide front-end and back-end development services;
- Performed testing and analysis of website design to check for optimal clarity, responsiveness, effectiveness, GDPR compliance, and ADA accessibility compliance.

Full Stack, Lead Developer (November 2010 – February 2021) at Stockroom Inc.

- Supervised and led a team of remote developers building a Magento PHP e-commerce platform for an ecommerce company with over 8,000 SKUS;
- Developed and maintained a network of informational/marketing WordPress sites;
- Interfaced with front-end and back-end development teams to develop unified product, smoothing out coding conflicts before problems arose;
- Migrated 20 years of product, customer, order data, purchasing, shipping, inventory, supplier, and production data from legacy systems to new Magento website & OfBiz ERP system;
- Collaborated with stakeholders and customers to gather requirements during development of a customized ERP system & Magento ecommerce website;
- Identified and fixed flaw in product receiving procedures that had resulted in overstatement of profit, allowing company to recover millions in overpaid taxes;

Front-End Developer (November 2005 – November 2010) at Stockroom Inc

- Maintained front end and back end code for an ecommerce network built in ASP.NET along with 4 non-ecommerce, informational WordPress sites;
- Managed full-cycle design tasks, handling all phases from conception to completion while maintaining guidelines throughout;
- Coded websites using HTML, CSS, JavaScript, PHP, .NET and jQuery;
- Provided front-end website development using WordPress, Hubspot, Ablecommerce, ASP.NET, Visual Basic, and other editing software.
